## Message from the CEO

**Emma Thomas**  
Chief Executive Officer

Sunshine Coast Council's vision is Australia's most sustainable region. Healthy. Smart. Creative. This vision sets a clear direction and aspiration for the future and we are committed to working collaboratively across our community and organisation to achieve it.

The Operational Plan 2022/23 advances the strategic goals and pathways from the Sunshine Coast Council Corporate Plan 2022-2026 which was adopted in May 2022. The operational plan establishes our priority activities for our organisation and assigns accountability to deliver on these across the next 12 months. This line of sight to our corporate plan enables us to continue to monitor progress towards achieving Council's vision through a balanced portfolio of work that continues to serve our community with excellence, respect our past and position our region for the future.

Over the next 12 months, our Council will continue to work with, and engage with, our community and businesses in an open and inclusive manner regarding priorities for our region, including:

- continued emphasis on sustainability in all forms and our responsiveness to the impacts of a changing climate
- planning and securing opportunities which will build the future prosperity and liveability of our region
- maintaining our focus on fiscal responsibility and emphasis on the delivery of services which meet community need in a cost effective and responsive manner
- managing our assets for current and future generations

- continuing to support the recovery of our community and local businesses from the impacts of the COVID-19 pandemic, and
- supporting a safe, contemporary and innovative organisation.

The Sunshine Coast continues to be a desirable place to call home. It is critical to continue to focus our planning on maintaining and enhancing the natural environment and lifestyle that attracts people here. These are important considerations as we engage with our community to progress the development of the new planning scheme.

There is a lot to be excited about on the Sunshine Coast, including our role as a delivery partner in the Brisbane 2032 Olympic and Paralympic Games which bring opportunities to secure an enduring legacy that supports our communities to thrive well into the future. Our relationships across the community, business, and all tiers of government, will play an important role in realising the opportunities the Olympic Games presents and to proactively pursue funding to deliver key priorities.

The Operational Plan 2022/23 identifies 81 operational activities and 31 service outputs which will be the basis of quarterly progress reporting to the public, that will be published on our website. I look forward to working together to continue to progress our vision and deliver on our budget commitments towards a stronger, better and sustainable Sunshine Coast.

MESSAGE FROM THE CEO | 7

## Introduction

### What is the purpose of the operational plan?

The Corporate Plan 2022-2026 is Council's blueprint for the future. It considers the strategic direction of Council and defines how the organisation services and supports the community. Everything Council delivers aligns to the corporate plan. Section 104(5) of the *Local Government Act 2009* and Section 175 of the *Local Government Regulation 2012* sets out the requirements and content for an operational plan. The regulation provides that the operational plan must:

- (a) be consistent with the annual budget
- (b) state how a Council will:
  - (i) progress the implementation of the five-year corporate plan and
  - (ii) state how a Council will manage operational risks.

The Operational Plan 2022/23 has been prepared consistent with these requirements. The Operational Plan 2022/23 and the annual Budget 2022/23 are complementary documents and are developed in parallel to provide consistency between commitments in Council's work program and the resourcing allocations determined as part of the annual budget.

### How are operational activities determined and linked across Council?

The operational activities are drawn from implementation plans associated with Council decisions, Council endorsed strategies, legislative requirements, essential service reform and emerging issues and risks. Each operational activity aligns with one of the strategic goals as defined in the Corporate Plan 2022-2026. Linked to the corporate plan goals, and outlined within this plan, there are also two pathway types which are used to underpin the goals and help connect planning for the future, current service delivery and organisational performance activities.

- 1 Strategic pathways describe where Council is working to position itself to be better able to progress our vision and strategic intent within our regional goals.
- 2 Delivery pathways describe our organisational outcomes from a community-centric perspective and describe our capabilities and how we work together to achieve our purpose and deliver our goals.

Together this structure provides a holistic and integrated approach to progress Council's vision, strategies and plans.

Figure 1: Corporate Planning and Reporting Framework

## How are operational activities allocated and progressed?

The Operational Plan 2022/23 assigns lead responsibility for each operational activity to a 'Group' within the Organisational Structure (see Figure 2). Each Group of Council is responsible for delivering their assigned operational activities and reporting on implementation progress through quarterly and annual reporting processes. The successful implementation and resulting contribution to achieving the outcomes described in the Corporate Plan 2022-2026 relies on a collaborative, one-team approach by our elected representatives, employees, contractors, partners and volunteers.

This joint approach, for which the Sunshine Coast is renowned, enables consistent, focused, timely and value-for-money services to be delivered to our community. Operational activities are also incorporated into Group and Branch Business Plans, as well as individual performance plans. Each Group is responsible for managing the scheduling, delivery, performance and reporting for those activities, projects and services for which they have lead responsibility in line with the commitments and expectations of Council, as well as identifying, managing and monitoring operational risks.

## Governance, Risk and Reporting

### Corporate governance

Governance provides the structure through which Council's vision and objectives are achieved within a context of competing and changing social, economic and environmental challenges.

Corporate governance refers to the system by which Council is directed and controlled within the local government environment. This diagram (see Figure 3) gives an overview of the Corporate Governance Framework processes and practices to enable informed decision making for councillors, management and employees of the Sunshine Coast Council. The principles of the *Public Sector Ethics Act 1994* – integrity and impartiality, promoting the public good, commitment to the system of government and accountability and integrity – are the key elements that influence the application of the Corporate Governance Framework. The Framework is designed to achieve Council's vision as Australia's most sustainable region. Healthy. Smart. Creative.

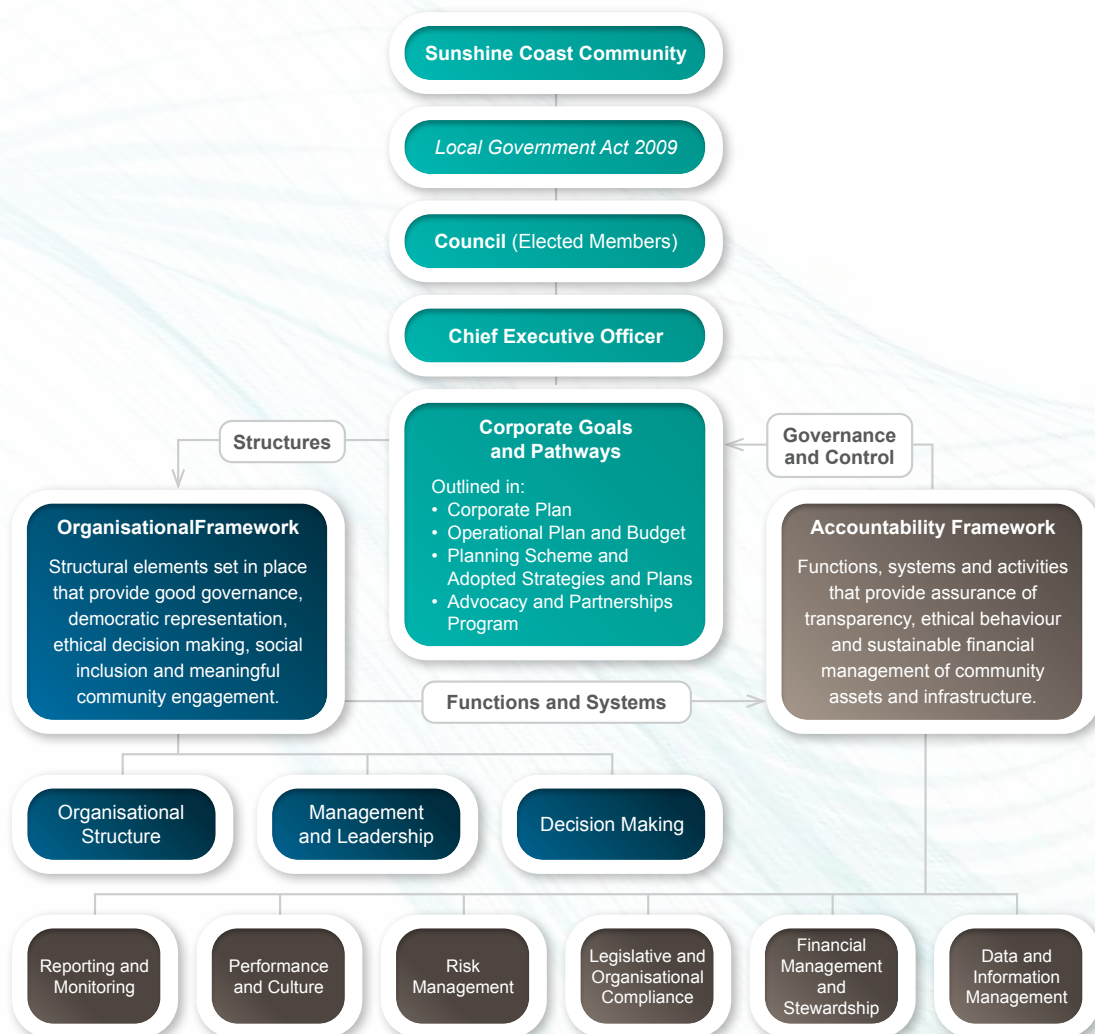

Figure 3: Corporate Governance Framework

## Reporting on the progress of the Operational Plan

The Operational Plan 2022/23 provides the basis for reporting to Council on progress towards achieving corporate plan goals each quarter. Business areas provide progress information and highlights regarding:

- 1 operational plan activities
- 2 services and
- 3 significant projects.

This quarterly reporting is presented to Council and published on Council's website. Highlights and overall performance for the year are also reported in Council's Annual Report.

## Risk management

Risk management is the identification, assessment and prioritisation of risks. It also includes the steps taken to minimise such risks.

Council has a Risk Management Policy, Risk Management Guideline and Risk Management Framework to assist in identifying risks and opportunities in all aspects of Council operations. Risk management practices at Council are consistent with AS/NZS/ISO 31000:2018 which is the international standard for risk management.

Council regularly reviews, monitors and reports on risks across Council, including strategic risks, operational risks and project risks. Regular risk reports are provided to the Audit Committee.

### Operating Performance Ratio

Measures the extent to which operating revenues raised cover operational expenses only or are available for capital funding purposes or other purposes.

Calculation: Operating Result (excluding capital items) as a percentage of operating revenue

Target: between 0% and 10%

### Council Controlled Revenue Ratio

Indicates the degree of reliance on external funding sources such as operating subsidies, donations and contributions. Council's financial flexibility improves the higher the level of its own source revenue.

Calculation: Net rates, levies and charges & fees and charges / total operating revenue.

Target: Greater than 60%

### Total Debt Service Cover Ratio

Indicates the ability to repay loan funds. A low cover indicates constrained financial flexibility and limited capacity to manage unforeseen financial shocks.

Calculation: (Operating result (excluding capital items) + depreciation and amortisation + gross interest expense) / (gross interest expense + prior year current interest bearing liabilities)

Target: Greater than 2 times

### Net Financial Liabilities Ratio

Measures the extent to which the net financial liabilities of Council can be repaid from operating revenues.

Calculation: (Total liabilities - current assets) / total operating revenue (excl. capital items)

Target: not greater than 60%.

### Cash Expense Cover Ratio

Indicates the number of months council can continue paying its immediate expenses without additional cash loans.

Calculation: (Current year's cash and cash equivalents balance / (total operating expenses - depreciation and amortisation - finance costs charged by QTC - interest paid on overdraft) \* 12

Target: Greater than 3 months.

### Asset Sustainability Ratio

This ratio reflects the extent to which the infrastructure assets managed by Council are being replaced as they reach the end of their useful lives.

Calculation: Capital expenditure on replacement assets (renewals) / depreciation expense

Target: greater than 90%.

## Strategic Policy

### 2022/23 Debt Policy

Corporate Plan reference:	5.1 – Maintain a financially sustainable organisation that balances the needs of our growing region.	
Endorsed by Council on:	26 May 2022	Reference Number: OM22/31
Manager responsible for policy:	Chief Financial Officer, Business Performance Group	

### Policy statement

The purpose of this policy is to ensure the sound management of Council's existing and future debt. The policy will provide clear guidance for staff in the management of Council's debt portfolio and maintenance of appropriate debt and debt service levels.

New borrowings will only be made to fund capital expenditure, for a period less than or equal to the estimated useful life of the asset(s) and for no more than 20 years.

New borrowings will be undertaken in accordance with the Queensland Treasury Corporation Guidelines, the *Statutory Bodies Financial Arrangements Act 1982* and Section 192 of the *Local Government Regulation 2012*.

### Policy scope

This policy applies to all Councillors and council staff and extends to all borrowing activities of Council and any controlled entities.

### Policy requirements

#### Borrowing Purposes

- Council will not utilise loan funding to finance operating activities or recurrent expenditure.
- Council undertakes full analysis of all funding options as outlined in the Long Term Financial Forecast, including a forward program of capital works, to determine loan funding requirements.
- Council recognises that infrastructure demands placed upon Council can often only be met through borrowings, but will always be mindful of the additional cost incurred by the community when assets are acquired through borrowings, as this increases the cost of providing capital infrastructure.
- Council will endeavour to fund all capital renewal projects from operating cash flows and borrow only for new or upgrade capital projects, having regard to sound financial management principles and giving consideration to inter-generational equity for the funding of long term infrastructure projects.

- Where capital expenditure is deferred from one year to the next, the drawdown of approved loan funds will be reviewed to minimise interest expenses.
- Borrowings for infrastructure that provide the opportunity for a return on assets will take priority over borrowings for other assets.

**Debt Term**

Where capital projects are financed through borrowings, Council will repay the loans within a term not exceeding the life of those assets, and over a term that optimises cash flow efficiency. Loans undertaken for core Sunshine Coast capital investment are planned to be repaid within a twelve (12) year period. Loans undertaken for Region Making projects may have a term of greater than twelve years.

- If surplus funds become available, and where it is advantageous to Council, one-off loan repayments will be made to reduce the term of existing loans.
- In an environment of fluctuating interest rates, and where there is a distinct economic advantage to Council, consideration will be given to renegotiating any outstanding loans to obtain the best long-term benefit to Council.

**Repayment Ability**

Council will maintain close scrutiny of debt levels to ensure that relative sustainability indicators will not exceed target parameters recommended by Queensland Treasury Corporation and *Local Government Regulation 2012*.

**Borrowing Sources**

Council will raise all external borrowings at the most competitive rates available and from sources available as defined by legislation. Consideration will be given to provision of loans to business units from surplus cash reserves held by Council by way of an internal loan.

**Proposed Borrowings**

Proposed borrowings planned for the current financial year and the next nine financial years are outlined in Appendix A, in accordance with section 192 Local Government Regulation 2012

**Internal Loans**

The provision and approval of an internal loan will depend on the availability of surplus funds at the time of application and the capacity of the business unit or operational activity to repay the loan.

- All applications for internal loans will be made by reference to the Finance Branch for consideration in accordance with the Long Term Financial Forecast.
- The term of the loan will be appropriate to the life of the asset being financed.
- In all cases, where business units are subject to the provisions of the National Competition Policy, the cost to the business unit will be no less than what would apply to an equivalent private sector business. The interest rate will be the sum of:
  - (a) the equivalent QTC borrowing rate for the proposed term;
  - (b) the QTC administration charge; and
  - (c) an additional margin above the QTC borrowing rate.
- The interest rate applicable to internal loans relating to operational activities of Council will be the actual borrowing cost from QTC including administrative charges.

Council may, upon reasonable notice being given, require repayment of part or all of the balance of the loan at any time, which would require the business unit to convert the outstanding balance of the loan to an external facility.

- Provision for the repayment of the loan will be included in the annual budget for the business unit.

## Principles

The purpose of establishing this policy is to:

- Provide a comprehensive view of Council's long term debt position and the capacity to fund infrastructure growth for the region;
- Increase awareness of issues concerning debt management;
- Enhance the understanding between Councillors, community groups and council staff by documenting policies and guidelines;
- Demonstrate to government and lending institutions that Council has a disciplined approach to borrowing.

## Roles and responsibilities

Pursuant to Section 192 *Local Government Regulation 2012*, Council must prepare a debt policy each year that states the new borrowings planned for the current financial year and the next nine financial years.

The Finance Branch will review the cash flow requirements prior to loan proceeds being drawn down to minimise interest expenses.

## Measurement of success

Financial sustainability indicators remain within target ranges and the provision of necessary infrastructure is not constrained through the lack of capital funding.

Details of outstanding loans will be reported annually in Council's Financial Statements and Annual Report.

## Policy commitment

Council employees and Councillors covered in the scope of this policy consistently demonstrate and uphold the intent, objectives and principles of this policy. Nothing in this policy requires or authorises an employee of Council or Councillor to act in any way that is contrary to law. Any instances of non-compliance will be managed in accordance with any relevant codes of conduct, policies and legislation dealing with conduct and/or disciplinary action.

## Related legislation, policies, strategies and documents

All individuals engaged in dealings within the scope of this policy are required to fulfil the ethical and behavioural obligations as defined in legislation. In the event of an inconsistency between any provision of this policy and any provision of the following related legislation, policies, strategies and documents, the provisions of the related legislation, policies, strategies and documents shall prevail, unless the CEO or Council expressly waive a provision of this policy by prior agreement. For further assistance please contact the Manager of Corporate Governance.

## Definitions

**Business unit** – A business activity within Council structure subject to the application of full cost pricing principles as defined under the National Competition Policy.

**Inter-generational equity** – This relates to the fairness of the distribution of the costs and benefits of a policy when costs and benefits are borne by different generations (i.e. the principle whereby those who derive a direct benefit from the service or infrastructure provided actually pay for that service).

**QTC** – Queensland Treasury Corporation.

## Strategic Policy

### 2022/23 Revenue Policy

Corporate Plan reference:	Our outstanding organisation 5.1 - Maintain a financially sustainable organisation that balances the needs of our growing region.	
Endorsed by Council on:	26 May 2022	Reference Number: OM22/32
Manager responsible for policy:	Chief Financial Officer, Business Performance Group	

### Policy statement

The purpose of this Revenue Policy is to set out the principles used by Council for:

- levying rates and charges;
- granting concessions for rates and charges;
- recovering overdue rates and charges; and
- cost-recovery methods.

The Revenue Policy will be applied by Council in the development of the annual budget for the 2022/23 financial year.

### Policy scope

The Revenue Policy applies to all areas identified in Section 193 of the *Local Government Regulation 2012*.

### Policy Requirements

#### The Levying of Rates and Charges

Council levies rates and charges to fund the provision of valuable services to our community. When adopting its annual budget Council will set rates and charges at a level that will provide for both current and future community requirements. Council will apply the principle of transparency in making rates and charges.

#### 1. Differential General Rates

Differential General Rate revenue provides essential whole of community services not funded through subsidies, grants, contributions or donations received from other entities, or not provided for by other levies or charges. Council will consider all full cost recovery options before calculating the differential general rate for each rating category.

Council is required to raise an amount of revenue it sees as being appropriate to maintain assets and provide services to the region as a whole. In deciding how that revenue is raised, Council has formed the opinion that a differential general rating scheme, based

primarily on land use, provides the most equitable basis for the distribution of the general rate burden.

The rateable value for each property is the basis for determining the amount of the general rate levied. Council recognises that significant valuation fluctuations may have an adverse effect on pensioners. Council has implemented a Deferment of General Rates Policy to provide eligible pensioners with the opportunity to apply for a deferment of general rates.

**2. Special and Separate Rates and Charges**

Where appropriate Council will fund certain services, facilities or activities by means of separate or special rates or charges.

In accordance with Section 94 of the *Local Government Regulation 2012* Council will levy special rates and charges on certain properties that are considered to be specially benefited by the provision of a specific service, facility or activity.

Special rates are based on the rateable value of the land and special charges are a flat charge per property, where this is considered to provide a more equitable basis for the sharing of the cost.

In accordance with Section 103 of the *Local Government Regulation 2012* Council will levy a separate rate or charge on all rateable land in the region to fund a particular service, facility or activity where Council believes that the service, facility or activity is key in achieving council's vision to be Australia's most sustainable region – healthy, smart, creative.

**3. Other Charges**

In general, Council will be guided by the principle of user pays in making all other charges.

**The Purpose of and Granting of Concessions for Rates and Charges**

Under Chapter 14, Part 10, section 121 of the *Local Government Regulation 2012* Council may grant a concession. The concession may only be of the following types;

- a rebate of all or part of the rates or charges;
- an agreement to defer payment of the rates and charges;
- an agreement to accept a transfer of unencumbered land in full or part payment of rates or charges.

In accordance with Section 120(1)(a) of the *Local Government Regulation 2012*, Council has determined that eligible pensioners who are property owners may receive concessions. The purpose of these concessions is to assist pensioner property owners remain in their own home by reducing the financial impact of rates and charges.

In accordance with Section 120(1)(b) of the *Local Government Regulation 2012* charitable organisations, community groups, and sporting associations, whose objects do not include making a profit may also be entitled to concessions. The purpose of these concessions is to encourage and support charitable organisations, community groups, and sporting associations as they contribute to the health and well-being of the community and the social cohesion of the region.

In accordance with Section 120(1)(c) of the *Local Government Regulation 2012* concessions may be granted if the payment of the rates or charges will cause hardship to the landowner. The purpose of these concessions is to assist ratepayers in hardship circumstances by reducing the short-term cash flow impact of paying rates and charges, by for example providing a longer period over which to pay rates and charges.

In accordance with Section 120(1)(d) of the *Local Government Regulation 2012* concessions may be granted if the concession will encourage the economic development of all or part of the local government area. In accordance with the provisions of the Sunshine Coast Investment Incentive

Scheme an approved business or enterprise may be entitled to a concession in the form of a deferment of general rates for such period as Council may determine from time to time.

In exercising these concession powers Council will be guided by the principles of:

- transparency, by making clear the requirements necessary to receive concessions; and
- communication, by raising the awareness of target groups that may qualify for these concessions; and
- equity, by ensuring that all applicants of the same type receive the same concession.

### The Recovery of Rates and Charges

Council will exercise its rate recovery powers pursuant to the provisions of Chapter 4 Part 12 of the *Local Government Regulation 2012* in order to reduce the overall rate burden on ratepayers, and will be guided by the principles of:

- equity, by treating all ratepayers in similar circumstances in the same manner;
- transparency, by making clear the obligations of ratepayers and the processes used by Council in assisting them to meet their financial obligations; and
- flexibility, by accommodating ratepayers' needs through short-term payment arrangements.

### Cost Recovery Fees

All fees and charges will be set with reference to full cost pricing. Cost recovery fees will be charged up to a maximum of full cost. Commercial charges will be at commercial rates. Council acknowledges the community benefit associated with not-for-profit organisations and Traditional Owners conducting activities on the Sunshine Coast. All not-for-profit organisations are exempt from cost recovery fees for applications to conduct activities requiring an approval on public and private land within the region. All applications from Traditional Owners of the Kabi Kabi and Jinibara people are exempt from cost-recovery application fees in relation to tourism and cultural business activities occurring on community land within the Sunshine Coast Regional Council local government area.

### New Development Costs

Developer contributions for infrastructure are determined each year in accordance with the philosophy that a developer should pay reasonable and relevant contributions towards the capital cost of the provision of infrastructure to meet past and future augmentation costs associated with this new development, subject to State Government requirements. Infrastructure agreements are negotiated outcomes between Council and the developer.

## Principles

In levying rates and charges, Council will apply the principles of:

- consistency, by scheduling the issue of rate notices on a half yearly basis;
- communication, by advising ratepayers about rate notice issue dates and payment dates;
- clarity, by providing meaningful information on rate notices to enable ratepayers to clearly understand their responsibilities; and
- flexibility, by providing payment arrangements to ratepayers in financial difficulty, along with a wide array of payment options.

In making and levying rates and charges, Council will be guided by the principles of:

- equitable distribution of the differential general rates burden as broadly as possible;
- transparency in the making and levying of rates;
- flexibility, to take account of changes in the local economy;
- clarity in terms of responsibilities (council's and ratepayers') in regard to the rating process;
- National Competition Policy legislation where applicable; and

- having in place a rating regime that is efficient to administer.

Accordingly, the principles contained within the Revenue Policy are applied in the determination of the Revenue Statement, rates, fees and charges.

### **Roles and responsibilities**

Council is required to prepare and adopt a Revenue Policy in accordance with Section 193 of the *Local Government Regulation 2012*. The Revenue Policy must be reviewed annually and in sufficient time to allow an annual budget that is consistent with the Revenue Policy to be adopted for the next financial year.

The Chief Executive Officer is responsible for executing the Revenue Policy. Group Executive Business Performance, the Chief Financial Officer and Finance Branch are bound by the principles outlined in this policy in the levying and recovery of rates and charges, and in the application of concessions relating to those rates and charges. All council staff are bound by the principles outlined in this policy in determining cost recovery and commercial fees and charges, and in the application of an exemption relating to those fees and charges.

### **Measurement of success**

Financial sustainability indicators remain within target ranges and Council maintains a strong financial position through adequate and equitable revenue streams.

### **Policy commitment**

Council employees and Councillors covered in the scope of this policy consistently demonstrate and uphold the intent, objectives and principles of this policy. Nothing in this policy requires or authorises an employee of Council or Councillor to act in any way that is contrary to law. Any instances of non-compliance will be managed in accordance with any relevant codes of conduct, policies and legislation dealing with conduct and/or disciplinary action.

## 2. ADMINISTRATION

### 2.1 Issue of Rates Notices

Separate rate notices will be issued in the first six months of the financial year (July to December), and in the second half of the financial year (January to June), for the billing periods 1 July 2022 to the 31 December 2022, and 1 January 2023 to the 30 June 2023 respectively. Each rate notice includes one half of the annual rates and charges levied for the financial year.

In accordance with section 118 of the *Local Government Regulation 2012*, and section 115 of the *Fire and Emergency Services Act 1990* all rates and charges and the State Government's Emergency Management Levy are to be paid by the due date shown on the rate notice.

The council is required to collect the Emergency Management Levy in accordance with the *Fire and Emergency Services Act 1990* and this levy is included on the rate notice. The council billing frequency and method noted above will be applied to the Emergency Management Levy. All funds raised from this levy are forwarded to the Queensland Fire and Emergency Services. For the financial year 2022/23, the levy is as prescribed by the *Fire and Rescue Service Regulation 2011*, which is subject to alteration from time to time and are therefore outside the Sunshine Coast Regional Council's discretion. Council pensioner concessions as shown in section 2.3 will not be applied to the Emergency Management Levy.

### 2.2 Adjustment of Rates and Charges

Supplementary rates notices for variations in rates and charges will be issued as required during the financial year. It is the owner's responsibility to check that all rates and charges are correct at the time of the issue of the rate notice. Adjustment to rates and charges up to a maximum of twelve months prior to the current rating period, will only be made in exceptional circumstances in accordance with the provisions of section 3.2.4, excluding adjustments arising from the application of criteria (C) of the Principal Place of Residence definition detailed in section 2.8 which will only be made from the start of the period of the current rate notice.

Adjustment for rates and charges levied in the prior twelve months will **not** be made where; a property has been categorised in Differential General Rate Categories 16, 16UT, 16RT, 17, 17UT, 17RT, 18, 18UT, 18RT, 19, 19UT, 19RT, 27, 27UT, 27RT, 29, 29UT or 29RT and the owner/s have not provided a completed differential general rate objection notice and sufficient supporting documents advising that the property is their principal place of residence per section 3.2.4 of this Revenue Statement.

### 2.3 Pensioner Concession

Council's Pensioner Rate Concession to eligible pensioners will be allowed under Chapter 4, Part 10 of the *Local Government Regulation 2012*.

To qualify for council's Pensioner Rate Concession the ratepayer must meet the following eligibility criteria and **MUST ALSO** qualify for the Queensland Government Pensioner Rate Subsidy.

#### 2.3.1 Eligibility Criteria

For Queensland Government Pensioner Rate Subsidy

The pensioner:

- (a) Must possess a current, valid qualifying concession card, namely:
  - (i) Pensioner Concession Card issued by Centrelink or the Department of Veteran Affairs,  
**OR,**
  - (ii) Repatriation Health (Gold) Card - (for all Conditions) issued by the Department of Veteran Affairs; and
- (b) Must be the owner (either solely or jointly), or be an eligible life tenant, in accordance with the guidelines for Queensland Government Pensioner Rate Subsidy, of property within the Sunshine Coast Regional Council local government area which is their principal place of residence, AND must have (either solely or jointly with a co-owner/s), the legal responsibility for payment of rates and charges which are levied in respect of the said property by the council. In the case of joint ownership, the subsidy will only apply to the

Sunshine Coast Council – 2022/23 Revenue Statement

applicable rates and charges proportionate to the share of property ownership of the approved pensioners. Where a co-owner is a declared dependant displayed on the applicant's pension card the declared dependant's proportionate share of property ownership is incorporated when assessing the proportionate share of property ownership of the applicant. For holders of the Repatriation Health (Gold) card issued by the Department of Veteran Affairs the name of the co-owner de facto/spouse, is not listed on cards and therefore when assessing the proportionate share of property ownership of the applicant the co-owner de facto/spouse portion is consequently incorporated; and

- (c) Must, if a 'first time' applicant, lodge and complete the prescribed application to be entitled to a Queensland Government Pensioner Rate Subsidy. The information on this application form will be used by council to verify the eligibility of all pensioners (Centrelink and Veteran Affairs pension recipients). Upon proof of eligibility, the entitlement to a subsidy will commence from either the card start date shown on the Pensioner Concession Card or the date of occupation of their principal place of residence or the start of the current rating period, whichever is the later date. Such entitlement will continue until the sale of that property or until the entitlement to a pension ceases to exist; and
- (d) Must, if an 'existing' applicant, lodge another application on the acquisition of a replacement property within the Sunshine Coast Regional Council local government area, OR if required by council; and
- (e) Pensioner Rate Subsidy will only be allowed where there is an approved habitable residence on the land which complies with the *Queensland Building Act 1975*.

Should the eligibility criteria for the Queensland Government Pensioner Rate Subsidy be revised the updated criteria will be apply.

For the Sunshine Coast Regional Council Pensioner Rate Concession

In addition to the above, the ratepayer **MUST**:

- (a) Have owned property within the Sunshine Coast Regional Council local government area for the preceding three years; or
- (b) Paid rates on property within the Sunshine Coast Regional Council local government area for five of the last ten years, so long as the "gap" between ownerships in this period does not exceed twelve months.

Upon meeting the above qualifying period of three years, the rating concession will be applied from the start of the next rating period. Discretion may be applied in relation to the contribution to the Sunshine Coast Regional Council local government area regarding continuous residency, consistent with pensioner concession arrangements as listed above.

For holders of the Repatriation Health (Gold) Card issued by the Department of Veteran Affairs who have been classified as Totally and Permanently Incapacitated the ownership requirements detailed above are waived.

### 2.3.2 Method of Calculation – Per Property

Method of calculation - per property*		
*25% of the Differential General Rate subject to the following maximum amounts		
Pension Rate	Sole title to the property	Joint title to the property
Maximum level of pension (full pension)	\$271 per annum maximum	\$212 per annum maximum
Not Maximum level of pension (part pension)	\$136 per annum maximum	\$77 per annum maximum

#### 2.3.2.1 Single Owner on the Maximum Rate of Pension

Where the pensioner is in receipt of the maximum level of pension and is the sole owner of the property that is their principal place of residence the concession will be 25% of the differential general rate up to a maximum amount of \$271 per annum.

#### 2.3.2.2 Joint Owner on the Maximum Rate of Pension

Where the pensioner is in receipt of the maximum level of pension and the property is their principal place of residence and owns the property jointly with one or more people who meet the eligibility criteria in section 2.3.1, the concession will be 25% of the differential general rate up to a maximum amount of \$212 per annum.

#### 2.3.2.3 Single Owner not on the Maximum Rate of Pension

Where the pensioner is not in receipt of the maximum level of pension and is the sole owner of the property that is their principal place of residence the concession will be 25% of the differential general rate up to a maximum amount of \$136 per annum.

#### 2.3.2.4 Joint Owner not on the Maximum Rate of Pension

Where the pensioner is not in receipt of the maximum level of pension and the property is their principal place of residence and owns the property jointly with one or more people who meet the eligibility criteria in section 2.3.1, the concession will be 25% of the differential general rate up to a maximum amount of \$77 per annum.

### 2.3.3 Pensioner Rate Concession and/or Queensland Government Pensioner Rate Subsidy adjustment for previous rating periods

Where a pensioner requests a Pensioner Rate Concession is applied to a previous rating period, requests must be submitted to council in writing with supporting evidence to council's satisfaction, in addition an Application for Pension Rate/Subsidy Concession form and a copy of the Pensioner Concession Card must be submitted. Council, in its sole discretion, may determine whether to grant the request in relation to the Council Pensioner Rate Concession.

Requests will be considered that meet one of the following criteria:

- (a) The applicant's pension has been granted and backdated, or their pensioner status restored retrospectively as a result of a proper appeal process with Centrelink or Department of Veteran Affairs, thereby preventing them from applying at the date of grant; or,
- (b) a person's failure to be granted the Queensland Government Pensioner Rate Subsidy and/or the Sunshine Coast Regional Council Pensioner Concession has resulted from an acknowledged error on the part of council or the Department of Communities, Disability Services and Seniors, or a person professionally advising the pensioner, such as a solicitor or financial adviser.

All written backdate requests will be forwarded to State Government Concession Services by council for review and to determine if a Queensland Government Pensioner Rate Subsidy will be granted. If the Subsidy will not be granted, Council will not grant the concession.

The interest will be compound interest, calculated on daily rests. For a day on or after 1 July 2022 the interest rate will be 8.17% per annum.

### 2.6.2 Arrangements to Pay

Pursuant to section 129 of the *Local Government Regulation 2012*, council will allow ratepayers to enter into an arrangement to pay rates and charges for a particular six month rating period, by either fortnightly or monthly instalments. The arrangement will allow the full payment of rates and charges by the end of the current rating period within which the arrangement is established. A separate arrangement is required for each six month rating period and arrangements may not be entered into where there are overdue rates and charges from prior rating periods. Where a ratepayer defaults on an arrangement to pay, the arrangement will be cancelled, and interest applied from the date of default in accordance with section 2.6.1 of this Revenue Statement. The establishment of arrangements to pay will be subject to the requirements included in procedural and application documents prepared from time to time.

### 2.6.3 Overdue Rates and Charges

Where the rates and charges remain unpaid and an arrangement to pay has not been made, a reminder notice will be issued. Where rates and charges remain unpaid after the reminder notice period, further recovery action may commence, which may include being referred to an external Debt Recovery Agent. Council may also undertake court proceedings to recover overdue rates and charges in accordance with section 134 of the *Local Government Regulation 2012*.

As per sections 138 to 146 of the *Local Government Regulation 2012*, council has the power to sell the property for the recovery of outstanding rates and charges, which have been overdue for at least three years. Vacant land and commercial properties can be sold after one year where judgment has been entered.

The CEO, upon legal advice, has the authority to remove a property from the Sale of Land list or defer the sale of the property and reschedule the auction to a later date within the timeframes prescribed by the *Local Government Regulation 2012*.

## 2.7 Fees and Charges

Section 97 of the *Local Government Act 2009* allows a local government to fix a cost recovery fee.

All fees and charges will be set with reference to full cost pricing. Cost-recovery fees will be charged up to a maximum of full cost and reflect as far as possible the actual cost of providing services and facilities. Commercial charges will be at commercial rates. Council acknowledges the community benefit associated with not-for-profit organisations and Traditional Owners conducting activities on the Sunshine Coast. All not-for-profit organisations are exempt from cost recovery fees for applications to conduct activities requiring an approval on public and private land within the Sunshine Coast Regional Council local government area. All applications from Traditional Owners of the Kabi and Jinibara people are exempt from cost-recovery application fees in relation to tourism and cultural business activities occurring on community land within the Sunshine Coast Regional Council local government area.

Section 172(1)(d) of the *Local Government Regulation 2012* provides that if the local government conducts a business activity on a commercial basis the Revenue Statement must state the criteria used to decide the amount of the charges for the activity's goods and services. Commercial charges will be charged at commercial rates for a business activity conducted by council on a commercial basis and all commercial charges for the 2022/23 financial year are set out in the Register of General Cost-Recovery Fees and Commercial Charges 2022/23 as adopted.

Land valuation fees issued by the Department of Resources will be passed on to land owners via the rate notice.

Infrastructure Charges apply for the Maroochydore City Centre Priority Development Area in accordance with the SunCentral Maroochydore Infrastructure Agreement. The Prescribed Service Charge (PSC) under the SunCentral Maroochydore Infrastructure Agreement will appear on rate notices and is payable by the due date shown on the rates notice. Utility charges for waste management, including cleansing and waste removal activities, are levied pursuant to section 94(1)(b)(ii) of the *Local Government Act 2009* and section 99 of the *Local Government Regulation 2012* for the purpose of defraying the costs of operating, maintaining and managing the collection and disposal of waste from all lands and premises in council's local government area.

#### 5.1.2 Charge to apply

Charges, in accordance with section 5.1.11 or 5.1.12 shall apply to all lands and/or premises within the local government area of council where waste collection services are, or can be, made available.

If premises are in an area designated by council as an area in which council will conduct general waste collection, council will determine, having regard to the nature and volume of the general waste produced as a result of the ordinary use or occupation of the premises:

- (a) the number of standard general waste containers to be supplied to the premises; and
- (b) the size and type of each standard general waste container; and
- (c) the nature of the general waste to be stored in each standard general waste container, for example, whether the standard general waste container is to be set aside for the storage of:
  - (i) commercial waste; or
  - (ii) domestic waste; or
  - (iii) recyclable waste; or
  - (iv) garden organics and
- (d) how often council will arrange for the collection of general waste from each standard general waste container supplied to the premises.

For the avoidance of doubt, in making a determination, from time to time, council is not obliged to have regard to:

- (e) the extent to which the owner or occupier of the premises elects to utilise, for the storage of general waste, 1 or more of the standard general waste containers supplied to the premises for, or on behalf of, council; or
- (f) the extent to which the owner or occupier of the premises elects to utilise, for the storage of general waste, 1 or more containers, other than standard general waste containers supplied to the premises for, or on behalf of, council.

Council delegates, to the Chief Executive Officer of council, the power to make a determination, having regard to the nature and volume of general waste produced as a result of the ordinary use or occupation of premises, about each of the following:

- (a) the number of standard general waste containers to be supplied to the premises; and
- (b) the size and type of each standard general waste container to be supplied to the premises; and
- (c) the nature of the general waste to be stored in each standard general waste container supplied to the premises; and

Domestic premises, for the minimum of a 240 litre waste container for the collection of garden organics, is land that is recorded under one of the differential general rate categories 1, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 16RT, 16UT, 17, 17RT, 17UT, 18, 18RT, 18UT, 19, 19RT, 19UT or 23 as shown in section 3 or land used for domestic purposes that is not rateable land and where Council has been requested to provide the service.

All garden organics utility charges for domestic premises shall be calculated in accordance with the utility charge details listed in Table 3.

### 5.1.4 Inclusions

#### *Domestic premises*

If domestic premises are in an area designated by council as an area in which council will conduct general waste collection, council may, having regard to the nature and volume of the domestic waste, recyclable waste or garden organics produced as a result of the ordinary use or occupation of the domestic premises:

- (a) require the supply and servicing of waste containers, at a frequency considered necessary by council, but in any event not less frequently than the following:
  - (i) one 140 litre waste container for the collection of domestic waste from the domestic premises serviced weekly and one 240 litre waste container for the collection of recyclable waste from the domestic premises serviced fortnightly; or
  - (ii) one 140 litre waste container for the collection of domestic waste from the domestic premises serviced weekly and one 360 litre waste container for the collection of recyclable waste from the domestic premises serviced fortnightly; or
  - (iii) one 240 litre waste container for the collection of domestic waste from the domestic premises serviced weekly and one 240 litre waste container for the collection of recyclable waste from the domestic premises serviced fortnightly; or
  - (iv) one 240 litre waste container for the collection of domestic waste from the domestic premises serviced weekly and one 360 litre waste container for the collection of recyclable waste from the domestic premises serviced fortnightly; or
- (b) if more than two domestic premises are located on land, for example, domestic premises located on a community title scheme, and the place set aside for the keeping of waste containers for the domestic premises on the land is not adequate to accommodate waste containers for the collection of domestic waste and recyclable waste in the number specified in paragraph (a), (i), (ii), (iii) or (iv):
  - (i) 1, or multiple, 660 litre low noise waste containers for the collection of domestic waste from the domestic premises located on the land serviced weekly and 1, or multiple, 660 litre low noise waste containers for the collection of recyclable waste from the domestic premises located on the land serviced fortnightly; or
  - (ii) 1, or multiple, 1100 litre low noise waste containers for the collection of domestic waste from the domestic premises located on the land serviced weekly and 1, or multiple, 1100 litre low noise waste containers for the collection of recyclable waste from the domestic premises located on the land serviced fortnightly; or
  - (iii) 1, or multiple, 1m<sup>3</sup> waste containers for the collection of domestic waste from the domestic premises located on the land serviced weekly and 1, or multiple, 1m<sup>3</sup> waste containers for the collection of recyclable waste from the domestic premises located on the land serviced fortnightly; or

- (iv) 1, or multiple, 1.5m<sup>3</sup> waste containers for the collection of domestic waste from the domestic premises located on the land serviced weekly and 1, or multiple, 1.5m<sup>3</sup> waste containers for the collection of recyclable waste from the domestic premises located on the land serviced fortnightly; or
  - (v) 1, or multiple, 2m<sup>3</sup> waste containers for the collection of domestic waste from the domestic premises located on the land serviced weekly and 1, or multiple, 2m<sup>3</sup> waste containers for the collection of recyclable waste from the domestic premises located on the land serviced fortnightly; or
  - (vi) 1, or multiple, 3m<sup>3</sup> waste containers for the collection of domestic waste from the domestic premises located on the land serviced weekly and 1, or multiple, 3m<sup>3</sup> waste containers for the collection of recyclable waste from the domestic premises located on the land serviced fortnightly; and
- (c) charge waste management utility charges for each collection of waste from the domestic premises in accordance with section 5.1.11.

*Commercial premises*

If commercial premises are in an area designated by council as an area in which council will conduct general waste collection, council may, having regard to the nature and volume of the commercial waste and the recyclable waste produced as a result of the ordinary use or occupation of the commercial premises:

- (a) require the supply and servicing of waste containers, at a frequency considered necessary by council, but in any event not less frequently than the following:
  - (i) one 240 litre waste container for the collection of commercial waste from the commercial premises serviced weekly and one 240 litre waste container for the collection of recyclable waste from the commercial premises serviced weekly; or
  - (ii) one 240 litre waste container for the collection of commercial waste from the commercial premises serviced weekly and one 360 litre waste container for the collection of recyclable waste from the commercial premises serviced weekly; and
- (b) charge waste management utility charges for each collection of waste from the commercial premises in accordance with section 5.1.12.

Also, if commercial premises are in an area designated by council as an area in which council will conduct general waste collection and council determines, having regard to the nature and volume of the commercial waste produced as a result of the ordinary use or occupation of the commercial premises, that the supply and servicing of one 240 litre waste container for the collection of commercial waste from the commercial premises, is not adequate, then council may:

- (a) require the supply and servicing, for the collection of commercial waste from the commercial premises (each an "other commercial waste service"), of waste containers, at a frequency considered necessary by council, but in any event not less frequently than the following:
  - (i) a second 240 litre waste container, or multiple 240 litre waste containers, serviced weekly; or
  - (ii) 1, or multiple, low noise waste containers having a capacity of 660 litres or 1100 litres, serviced weekly; or
  - (iii) 1, or multiple, bulk waste containers having a capacity of 1m<sup>3</sup>, 1.5m<sup>3</sup>, 2m<sup>3</sup>, 3m<sup>3</sup> or 4.5m<sup>3</sup> serviced weekly; or

- (b) charge waste management utility charges for each other commercial waste service in accordance with section 5.1.12.

If council determines, having regard to the nature and volume of the recyclable waste produced as a result of the ordinary use or occupation of commercial premises, that the supply and servicing of one

240 litre waste container for the collection of recyclable waste serviced weekly, or one 360 litre waste container for the collection of recyclable waste serviced weekly, is not adequate, then council may:

- (a) require the supply and servicing, for the collection of recyclable waste from the commercial premises (each an “other recyclable waste service”), of waste containers, at a frequency considered necessary by council, but in any event not less frequently than the following:
  - (i) a second 240 litre waste container, or multiple 240 litre waste containers, serviced weekly; or
  - (ii) a second 360 litre waste container, or multiple 360 litre waste containers, serviced weekly; or
  - (iii) 1, or multiple, low noise waste containers having a capacity of 660 litres or 1100 litres, serviced weekly; or
  - (iv) 1, or multiple, bulk waste containers having a capacity of 1m<sup>3</sup>, 1.5m<sup>3</sup>, 2m<sup>3</sup>, 3m<sup>3</sup> or 4.5m<sup>3</sup> serviced weekly; or
  - (v) 1, or multiple, compactor waste containers having a capacity of 23m<sup>3</sup> serviced weekly; or
  - (vi) 1, or multiple, bulk waste containers for recyclable waste (but limited to cardboard) having a capacity of 1m<sup>3</sup>, 1.5m<sup>3</sup>, 2m<sup>3</sup>, 3m<sup>3</sup> or 4.5m<sup>3</sup> serviced weekly; or

- (b) charge waste management utility charges for each other recyclable waste service in accordance with section 5.1.12.

If:

- (a) the premises which comprise a community titles scheme include both domestic premises and commercial premises, and
- (b) the domestic premises and commercial premises which comprise the community titles scheme share waste containers because that part of the land on which the community titles scheme is situated which is set aside for the storage of waste containers is not adequate to accommodate both standalone waste containers for the storage of commercial waste and standalone waste containers for the storage of domestic waste,

Council may:

- (c) require, having regard to the nature and volume of the general waste produced as a result of the ordinary use or occupation of the premises comprising the community titles scheme, the supply and servicing of waste containers, at a frequency considered necessary by council, but in any event not less frequently than the following:
  - (i) multiple 240 litre waste containers for the collection of commercial waste and domestic waste from the premises serviced weekly and multiple 240 litre waste containers for the collection of recyclable waste from the premises serviced fortnightly; or
  - (ii) 1, or multiple, 660 litre low noise waste containers for the collection of commercial waste and domestic waste from the premises serviced weekly and 1, or multiple, 660 litre low noise waste containers for the collection of recyclable waste from the premises serviced fortnightly; or
  - (iii) 1, or multiple, 1100 litre low noise waste containers for the collection of commercial waste and domestic waste from the premises serviced weekly and 1, or multiple, 1100 litre low noise waste containers for the collection of recyclable waste from the premises serviced fortnightly; or
  - (iv) 1, or multiple, 1m<sup>3</sup> bulk waste containers for the collection of commercial waste and domestic waste from the premises serviced weekly and 1, or multiple, 1m<sup>3</sup> bulk waste containers for the collection of recyclable waste from the premises serviced fortnightly; or

- (v) 1, or multiple, 1.5m<sup>3</sup> bulk waste containers for the collection of commercial waste and domestic waste from the premises serviced weekly and 1, or multiple, 1.5m<sup>3</sup> bulk waste containers for the collection of recyclable waste from the premises serviced fortnightly; or
- (vi) 1, or multiple, 2m<sup>3</sup> bulk waste containers for the collection of commercial waste and domestic waste from the premises serviced weekly and 1, or multiple, 2m<sup>3</sup> bulk waste containers for the collection of recyclable waste from the premises serviced fortnightly; or
- (vii) 1, or multiple, 3m<sup>3</sup> bulk waste containers for the collection of commercial waste and domestic waste from the premises serviced weekly and 1, or multiple, 3m<sup>3</sup> bulk waste containers for the collection of recyclable waste from the premises serviced fortnightly; or
- (viii) 1, or multiple, 4.5m<sup>3</sup> bulk waste containers for the collection of commercial waste and domestic waste from the premises serviced weekly and 1, or multiple, 4.5m<sup>3</sup> bulk waste containers for the collection of recyclable waste from the premises serviced fortnightly; and
- (d) charge the premises which comprise the community titles scheme, including both commercial premises and domestic premises, waste management utility charges for the collection of commercial waste, domestic waste, recyclable waste and garden organics calculated in accordance with section 5.1.11 except that, for the purposes of the calculation, each reference in section 5.1.11 to domestic waste shall be deemed to be a reference to commercial waste and domestic waste.

A maximum weight of 80kg will apply for each waste container if the waste container is any of the following:

Waste collection service cancellations are permitted in the following circumstances:

The Table at *Appendix 8* identifies the relationship between the defined use of commercial premises and its development type for the calculation of waste management utility charges. If commercial premises do not fit within a defined use listed in the table at *Appendix 8*, the development type, for the calculation of charges, will be determined by council.

#### 1. Special charge for assistance to Sunshine Coast Rural Fire Brigades

Sunshine Coast Regional Council recognises that it is beyond the fundraising ability of the volunteers that staff the rural fire brigades within Sunshine Coast Regional Council local government area to raise the funds to meet their operational costs and to acquire and maintain the necessary equipment to conduct their activities. Therefore, to provide financial assistance to Sunshine Coast Rural Fire Brigade Groups and their constituent Rural Fire Brigades, council has resolved to make and levy a special charge for the 2022/23 financial year upon all rateable land within Sunshine Coast Regional Council area which will, in the council's opinion, specially benefit from the services provided by the Rural Fire Brigades listed below.

### Policy outcome

The application of the Policy will:

- support council's vision for the Sunshine Coast as Australia's most sustainable region – healthy, smart, creative.
- contribute to maintaining and enhancing the region's natural assets, healthy environment and liveability credentials to achieve the corporate goal of: *Our Environment and Liveability*.

## Policy scope

This policy applies to all endorsed projects, programs, initiatives and any other expenses funded, wholly or partly, by the Environment Levy revenue.

## Policy statement

Council is committed to the preservation and enhancement of the natural environment.

Council's *Environment and Liveability Strategy 2017* provides the strategic direction to deliver a healthy environment and liveable Sunshine Coast.

The Strategy includes strategic natural environment outcomes which the Environment Levy Program contributes to achieving. These are that (by 2041):

- Our native plants, animals and habitats are healthy, resilient and valued by the community.
- Waterways and wetlands are healthy, resilient to change and valued by the community.
- Our coastal areas are healthy, resilient to climate change impacts and support sustainable use.

## Guiding principles

Development and implementation of the Environment Levy Program is guided by the following principles:

- projects, programs and initiatives align with the strategic directions of the *Environment and Liveability Strategy 2017*.
- projects, programs and initiatives are adaptive and responsive to current and emerging environmental issues.
- decision-making is accountable and transparent and demonstrates principles of good governance.

## Environment Levy Revenue

- The annual Environment Levy charge per rateable property is reviewed and determined as part of council's annual revenue statement.
- All revenue collected from the Environment Levy is allocated to the annual Environment Levy Program and four funding themes.
- All revenue collected including any revenue raised through approved Environment Levy business activities is held and accounted for separately from Council's general revenue.
- Environment Levy revenue, including restricted cash should not be available at any time for expenditure as general revenue.
- Any unspent funds at the end of the financial year are returned to the Environment Levy restricted cash.
- Environment Levy restricted cash funds can be used in the development of the annual Environment Levy Program.
- Environment Levy restricted cash can be used to fund the acquisition of land when allocated funds for this theme have been expended during the financial year (SM10/029).

- Anticipated underspends from endorsed Environment Levy projects can be used to support a demonstrated need for additional funds of other endorsed Environment Levy projects during the financial year. These budget amendments are reflected in the budget review process.
- The Environment Levy Policy and Program can be used for leveraging funding through grants and partnership opportunities offered by government and other organisations. However, future financial commitments cannot be made unless endorsed by council.

## Environment Levy Program

The Environment Levy Program (the Program) consists of a range of projects, programs and initiatives that deliver strategic and effective outcomes that protect and enhance the natural environment including our biodiversity, waterways and coastal foreshore assets.

A four year Program is developed and reviewed annually by the Integrated Environment Team and presented to council for consideration and adoption during budget preparations.

Environment Levy revenue is allocated and managed across the following funding themes:

### 1. Land acquisition

- Environmentally significant lands are acquired to assist in the strategic protection and enhancement of biodiversity values and ecological processes.
- Lands can be acquired to create strategic and new habitat areas that consolidate existing environment reserves and build landscape connectivity.
- Approval to acquire a property is through council resolution.
- Funding can be expended on costs associated with the land purchase, planning and legal matters, the establishment of the acquired land and legally binding protection mechanisms.
- Acquisition funding may contribute towards the purchase of land that also provides for the delivery of a range of other strategic outcomes that are consistent with this Policy.
- The revenue is not to be used to acquire land for parks where the primary purpose is recreation, although nature based recreation and economic opportunities are considered in the assessment of properties.
- Additional funds may be borrowed to assist with purchasing environmentally significant land if approved by council.
- Newly acquired land is established as per the requirements determined by an initial site assessment and property management plans.
- Property development initiatives that maintain or enhance conservation and appropriate nature based recreational and environmental educational values may be undertaken on land acquired through the Environment Levy to raise additional revenue or recoup some of the costs associated with the acquisition.
- Suitable properties may be considered for re-sale following the application of a legally binding protection mechanism to recoup acquisition costs.
- Any acquisition and disposal of land is carried out in accordance with the *Local Government Act 2009*.

### 2. Major projects

- Major on ground rehabilitation and regional planning, management and research projects which align and inform the implementation of council's environmental strategies/plans can be funded.

Endorsed by Council on:	TBC
Manager responsible for policy:	Manager Arts, Heritage and Libraries, Economic and Community Development

## Policy purpose

The purpose of the Arts and Heritage Levy Policy (the Policy) is to outline the administrative principles that provide direction for allocation of the Arts and Heritage Levy (the Levy) revenue towards endorsed projects and programs in an effective, open and accountable way.

Specific policy objectives are drawn from the:

- Corporate Plan vision for the region:  
***Australia's most sustainable region. Healthy. Smart. Creative.***
- Sunshine Coast Heritage Plan 2021-2031:  
***Our heritage is our gift for the future.***
- Sunshine Coast Arts Plan 2018-2038:  
***The soul of our community is our flourishing arts ecology: nurturing connections, promoting experimentation and inspiring collaboration.***

The primary purpose of this Policy is to direct investment towards both arts and cultural heritage projects that respond to the region's emerging and most critical challenges, in line with the goals and strategies endorsed within the Sunshine Coast Heritage Plan 2021-2031 and the Sunshine Coast Arts Plan 2018-2038.

This Levy will be set aside specifically for facilities, programs, projects and activities concerned with the preservation and promotion of the region's history and cultural heritage, the development and promotion of a sustainable arts ecology, and to trigger the support of other government and non-government partners.

## Policy outcome

It is the intention of Council that the Levy will be used to:

- document, research, conserve, protect, promote and provide access to those tangible and intangible items, places, facilities and events that define the stories, history and values of the people, communities and culture of the Sunshine Coast.

- ii. Develop local artists and local content, grow local participation and audiences, and embed art and creativity into the identity and experience of the Sunshine Coast.

Specifically, the Levy will be used to achieve:

The five key heritage outcome areas and goals, identified in the Sunshine Coast Heritage Plan 2021-2031:

1. **Knowledge:** *Heritage, its value and significance to the Sunshine Coast community, is comprehensively identified, researched, recorded and shared.*

## Policy scope

The Policy applies to all programs, projects, activities or incentives that are directly or indirectly funded or supported, wholly or partly, by the Arts and Heritage Levy.

The scope of this Policy is to provide direction for funding initiatives that complement the core business captured by the organisation's endorsed Sunshine Coast Heritage Plan 2021-2031 and the Sunshine Coast Arts Plan 2018-2038.

Council will review the amount of the Levy as part of adopting its annual revenue statement and the annual Arts Program and Heritage Program to be supported by the Levy as part of adopting its annual financial budget, to ensure it aligns with this Policy.

## Policy statement

Council demonstrates its commitment to supporting arts and cultural heritage outcomes through the collection of the Levy, recognising the important role that both sectors and industries play in shaping and influencing our sense of community, belonging, cultural vitality and identity in a time of unprecedented growth and change.

The resources generated from the Levy will:

- i. Encourage greater knowledge, protection, awareness, advocacy and celebration of cultural heritage within the Sunshine Coast given the increasing impacts of growth on cultural sites, places, knowledge and artefacts.
- ii. Stimulate the local arts sector, creating opportunities that strengthen the sector, and provide pathways to embed the arts into the identity and experience of the Sunshine Coast.

Council will provide transparent and equitable processes in the management and administration of the Levy. All requests for support, information and access to funds will be managed through a consistent process in accordance with both the 10 -year Sunshine Coast Heritage Plan 2021-2031 and the 20-year Sunshine Coast Arts Plan 2018-38, and any other associated Council strategies, priorities and guidelines.

## Guiding principles

- i. 81.25% of the levy (or \$13 per rateable property) will be allocated to the annual priorities outlined in the endorsed Sunshine Coast Heritage Plan 2021-2031.
  - Thirty-three percent (33%) of this proportion of the Levy, or as determined annually by Council, will be allocated to the established "Heritage Levy Futures Fund" to deliver infrastructure outcomes as outlined in the Sunshine Coast Heritage Plan 2021-2031 – implementation plan.
  - A further four percent (4%) of this proportion of the Levy, or as determined annually by Council, will be set aside to create an ongoing "Built Heritage Conservation Fund" to undertake ongoing maintenance of Council owned or managed State or Locally listed heritage properties that are leased by community groups or associations. The maintenance costs will be in line with maintenance and conservation plans.
  - Any unspent funds from the annual Heritage Levy program at the end of the financial year will be allocated to a restricted "Heritage Levy Fund" and be available for use in future years to support outcomes as outlined in the Sunshine Coast Heritage Plan 2021-2031.
- ii. 18.75% of the levy (or \$3 per rateable property) will be allocated to the annual priorities outlined in the endorsed Sunshine Coast Arts Plan 2018-2038.
  - Any unspent funds from the annual Arts Levy program at the end of the financial year will be allocated to a restricted "Arts Levy Futures Fund" and be available for use in future years to support outcomes as outlined in the Sunshine Coast Arts Plan 2018-2038.

Both programs will be endorsed by Council as part of the annual budget adoption process.

An annual report, outlining how the Arts and Heritage Levy has achieved the outcomes of the Sunshine Coast Arts Plan 2018-38 and the Sunshine Coast Heritage Plan 2021-31, will be developed for Council information.

At the end of each financial year, unspent and unrestricted levy funds may be available for expenditure in the following financial year or moved to either one of the four restricted funds to achieve outcomes as outlined in Council's adopted Sunshine Coast Heritage Plan 2021-2031 or Sunshine Coast Arts Plan 2018-2038.

The Levy may be used for leveraging grants and partnership opportunities from the state and federal governments and other agencies, provided there is no impediment to achieving the agreed outcomes of Levy funding.

Policies, plans, strategies, legislation and legal frameworks, and the principles of the Burra Charter, First Peoples: A Roadmap for Enhancing Indigenous Engagement in Museums and Galleries, and National Standards for Australian Museums and Galleries, should be considered in all relevant applications of this policy.

Financial management of Levy revenue must be in accordance with relevant legislation and Council policies, plans and strategies.

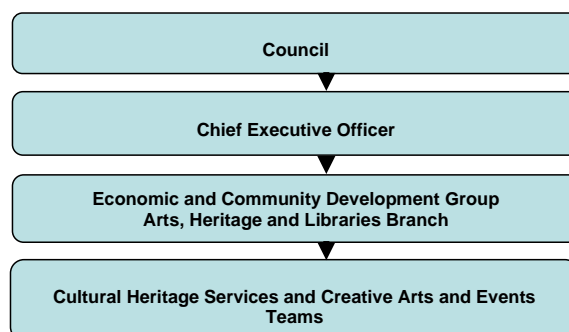

### Raising additional revenue

Where approved by Council or the Chief Executive Officer as appropriate, revenue may be raised through the following business activities of the Levy:

- Other investment funds set up for direct benefit and management of Levy monies including borrowings, sinking funds and possibly carry-over funds (where approved by Council)
- Charging public and private individuals and organisations for goods and services rendered through programs and activities conducted under the Levy
- Offering opportunities for ratepayers and other interested entities to donate additional funds into a Levy trust for future investment in protection of the region's cultural heritage values.

## Roles and responsibilities

The following diagram identifies areas with responsibility for implementing the Policy.

### Council

- acts as owner/ trustee and steward for the region's significant cultural heritage and arts assets
- sets corporate vision through its corporate plan and related strategies
- approves and reviews heritage management plans
- commissions public art and accepts donations of art and cultural pieces to be included in the region's public collections
- ensures appropriate resources and funding for arts and heritage management activities are made available.

### Arts, Heritage and Libraries Branch

The Arts Heritage and Libraries Branch will manage the Levy.

#### Cultural Heritage Services:

The Cultural Heritage Services Team within the Branch will:

- develop and deliver an annual Levy Program that aligns with the 10-year Sunshine Coast Heritage Plan 2021-2031

- partner with community museums, community and private collections, government and corporate agencies to deliver a range of initiatives that preserve and promote the unique cultural heritage of the Sunshine Coast.

#### **Creative Arts and Events:**

Both teams will work as part of integrated working groups to plan and deliver significant community and capital projects.

## **Measurement of success**

The key measurements for success of the Arts and Heritage Levy will be the successful implementation of the Levy funded actions identified in the Sunshine Coast Heritage Plan 2021-2031 and the Sunshine Coast Arts Plan 2018-38 including the associated Key Performance Indicators outlined in both Plans.

## Strategic Policy Transport Levy

Corporate Plan reference:	<b><i>Our strong community</i></b> 1.2 - Vibrant community places and spaces that are inclusive, accessible and adaptable 1.2.1 - Coordinate the delivery of Council's Transport Levy policy and projects including encouraging sustainable travel choices through travel behaviour change programs and connecting our local communities by supporting transport services such as Council Link, Flexi Link and Kenilworth Transport Service.
Endorsed by Council on:	July 2017 (OM17/120)
Manager responsible for policy:	Manager Transport and Infrastructure Planning Built Infrastructure Group

### POLICY PURPOSE

The Transport Levy Policy (Policy) is aimed to improving the strategic integrated transport network and supporting its users understanding to travel effectively, efficiently and more sustainably.

This Policy, while providing a strong focus on improvement of the public transport system for the Sunshine Coast Regional Council local government area, has an additional element related to securing and supporting the future strategic major transport needs of the Sunshine Coast Regional Council local government area, primarily relating to multi-modal corridors and infrastructure which assist economic activity.

The purpose of this Policy is to provide a basis for utilising revenue raised through the Transport Levy (Levy) on rateable properties in the Sunshine Coast Regional Council (Council).

### POLICY OUTCOMES

This Policy provides guidance to ensure the effective allocation of revenue raised from the Levy.

This Policy applies to selected eligible transport improvements considered of value to the community, delivered in a timely manner and supporting economic activity.

This Policy will bring forward beneficial multi-modal transport outcomes beyond the reach of currently available funding streams.

The creation of strong partnerships, particularly with the State, will be required to deliver on policy outcomes and to facilitate:

- Policy development
- Improved advocacy capacity
- Delivering catalyst projects with economic development potential
- Creating a more sustainable travel culture which benefits the transport networks and the community overall

- Directing 'seed funding' to attract improved and earlier transport investment by the State
- Partnering the delivery of mutually beneficial transport projects in line with Policy guidelines.

The outcomes of this Policy include:

- Utilising Levy revenue to fund or leverage selected eligible transport infrastructure for multi-modal transport outcomes that have priority but cannot be provided in a timely manner through existing funding mechanisms
- Allowing Council to influence the bringing forward of investment in State and Federal Government transport network improvements
- Enabling Council to enter into partnerships with the State Government, and potentially third party interests, to jointly fund selected eligible transport infrastructure and initiatives
- Enabling Council to fund selected eligible initiatives, projects and services for community benefit
- Enabling Council to raise awareness within the community of travel choices, leading to a change of travel behaviour, to increase the use of sustainable transport and related network operation
- An increased level of community awareness on the current and future transport issues facing the Sunshine Coast Regional Council local government area
- Develop and maintain a broad understanding of likely future strategic transport 'disruptions'
- Building a Transport Futures Fund directed at achieving long term, multi-modal, transport infrastructure outcomes.

## POLICY SCOPE

This Policy relates to any new or continuing initiative that is funded with revenue from the Levy and applies to all Councillors, Council staff, contractors and others associated with any existing or new transport levy initiative. The scope of this policy includes:

- Complements Council's vision: *Australia's most sustainable region: Healthy. Smart. Creative.*
- Supports the objectives of Council's Integrated Transport Strategy
- Supports multi-modal transport corridor planning and development providing for the future transport needs of the Sunshine Coast Regional Council local government area either as a sole participant or in a partnered way (primarily with the State Government)
- Assists in leveraging investment in projects to improve multi-modal transport infrastructure and services and to influence State and Federal Government funding priorities
- Seeks to leverage outcomes related to major non-infrastructure based projects with the State and Federal Governments
- Enables bringing forward selected major transport projects to achieve economic development outcomes for business and industry, particularly in partnership with others
- Creation of a 'Transport Futures Fund' to apply strategically with its principal focus being the coastal corridor mass transit initiative
- Enables ready reaction to emerging issues and relevant opportunities
- Seeks more efficient use of private cars, distinct modal shift from private cars to public passenger transport, and broader travel behaviour change to more sustainable modes
- Sourcing relevant, reliable transport data for analysis, forecasting and trend identification
- Tracking potential transport 'disruptors' and evaluation of any strategic transport impacts

- Allows approaches by external agencies, institutions and partners offering significant partnered opportunities with broad community benefit
- Applies to external agencies, institutions and partners to the extent possible.

### **POLICY STATEMENT**

Sunshine Coast Council recognises, through its Integrated Transport Strategy, the important role of all transport modes in providing for the movement of people and goods, thereby creating a connected community supporting an economically viable and sustainable region. This commitment is demonstrated by activity through this Levy and will assist the transition to more sustainable travel choices by individuals and will assist coping with expected growth.

The State Government co-ordinates and delivers State roads, provision of public transport (rail, bus etc.) and strategic cycle networks throughout Queensland through various Divisions of the Department of Transport and Main Roads. Council expects the State to meet its role and the associated responsibilities through timely investment to deal with growth and improvement to the existing transport system.

Council has a role in local roads and pedestrian and cycle networks predominantly. Council has a role in providing local bus stops but does not provide public transport services.

It is not intended for the Levy to be linked directly to, or deliberately subsidise, established transport budget programs financed through existing funding streams and mechanisms, except as resolved by Council.

It is not intended that Council takes on roles and activities typically left to 'market forces' to provide (e.g. technology elements, specific transport service types, etc.).

Integration of initiatives and timely programming of projects are essential to achieve viable transport networks to move people.

The transition of people from using cars to using more sustainable transport modes of travel (public passenger and active transport) for some of their journeys, as growth continues, is necessary. This will help utilise the capacity of existing alternative networks and alleviate or delay the need for investment addressing road capacity constraints. This may be more relevant if there is any sustained onset of externalities or sector 'disruptors', e.g., changed habits, market changes, etc.

Resources and actions are primarily directed to purely local government related responsibilities and community outcomes. However, Council could consider directing resources into partnering beneficial multi-modal transport projects in a timely manner and potentially consider participation in non-traditional areas in an informed, selected and limited way if there is a demonstrable and direct community benefit.

This policy is not intended to replace what can realistically be achieved through the effective use of existing budget revenues and external funding sources, complemented with mechanisms for effective land use planning and its integration with multi-modal transport solutions.

Potential examples of outcomes of the desired aims are:

- Road corridors – bring-forward selected beneficial multi-modal projects/initiatives with the State, solely by Council or with development
- Public Transport – improvements to infrastructure, services, stops, user systems, information systems, priority works
- Travel Behaviour Change - focused on individual and community wide benefits and outcomes.

### **GUIDING PRINCIPLES**

All revenue collected annually from the Transport Levy will be allocated to an approved program of initiatives with any balance directed to the Transport Futures Fund. From 2017/18, the contribution to the Transport Futures Fund (or associated activities of its primary focus) is targeted to be about

60%. Any unspent or uncommitted revenue raised each year identified at financial year's end (excluding valid commitments attracting carryover approval) will be transferred into the Transport Futures Fund.

All revenue collected will be accounted for separately to ensure that established processes governing collection and the management of allocations to specific qualifying projects and outcomes are followed. Any subsidy, grant or revenue generated by the application of this funding should also be included in the accounting of the Levy. Accrued interest on funds held in the Transport Futures Fund will remain with the Transport Futures Fund.

The annual Transport Levy Program should contain a generic outline of the types of projects within Sub-Programs. Sufficient background information relating to an outline, timing and resources is to be available or provided to enable Council to confirm compliance with this Policy.

An indicative Five Year Program will be developed containing infrastructure, services and other initiative types grouped into sub-programs. A high level indicative Five Year Program at Sub-Program level will be incorporated as part of the annual Budget process and be used as a guide.

A longer planning horizon will be applied when considering investment by the Transport Futures Fund and associated Transport Futures Fund Plan.

There is no intention to deliberately supplement or take on core budget program elements.

Some initiatives will need to incorporate a sunset clause, agreed timetable or performance measures for continuance.

**Activities for which revenue from the levy can be used include:**

- Investing in major strategic transport initiatives that have a genuine multi-modal outcome, with significant benefit(s) to public transport capability, including road improvements which may include bus and transit priority measures on Council roads and green links to provide penetration through developed areas
- Contributing to support trials of flexible public transport services to meet specific community needs (subject to investigation, demonstration of value for money, consideration of other benefits, and approvals)
- Taking advantage of opportunities through other agency activities benefitting increased public transport patronage by supporting issues such as travel behaviour change, education/information material
- Advancing selected investigations to bring forward beneficial strategic transport outcomes on the Sunshine Coast Regional Council local government area (includes coastal corridor mass transit)
- Working in partnership with the Department of Transport and Main Roads to bring forward infrastructure improvements giving public transport an advantage (priority measures) on State roads and corridors, such as queue jumps and green links which have local benefit
- Bringing forward major planned multi-modal infrastructure improvements which have a significant economic and community benefit
- Maximizing the use of the existing networks, adding resilience and limiting delays while maintaining safety, through transport network improvements
- Assisting with advice, strategies and supportive actions to improve transport outcomes for specific eligible events (Note: event organisers' responsibilities to provide and deliver management plans for transport and parking remain as part of the approval process)
- Developing and selectively implementing coordinated travel behaviour change programs to improve transport outcomes
- The establishment of a Transport Futures Fund, supported by the Transport Futures Fund Plan with initial primary focus on the coastal corridor mass transit initiative and then to target specific

strategic, long term, staged, transport projects which secure the transport needs of the Sunshine Coast Regional Council local government area

- Utilising selective investigations and data analysis of transport related topics to inform Council of trends, relevant measures, and future risks and opportunities
- Providing short term (project based) resources to specifically plan, develop and/or deliver approved projects and initiatives under this Levy.

**Activities for which revenue from the levy cannot be used include:**

- Funding must not be directed towards maintenance costs for transport infrastructure
- Funding must not be directed towards employing long term resources to specifically plan, develop or deliver approved projects and initiatives under the Transport Levy
- Funding must not be applied to programs or projects beyond the scope of this policy
- Funding must not be applied to initiatives that could be identified as funding 'business as usual' activities and responsibilities of the Department of Transport and Main Roads which would normally occur or be required if the Levy was not in place, except as directed by Council. This includes but is not limited to:
  - provision of new transport network infrastructure or upgraded existing infrastructure to deal with current or future capacity issues and safety
  - provision of new services, or the improvement of existing services, related to known development proposals or specific milestones
  - ability to procure improvement through statutory or other mechanisms
  - improvement of a minor change or an operationally necessary matter.

## **ROLES AND RESPONSIBILITIES**

Council as a Local Government is not tasked with managing or operating public transport. This is legislated as a State responsibility and the community would expect this responsibility to continue to be met by the State.

Council will set and monitor the Transport Levy Policy, Transport Futures Fund, Transport Futures Fund Plan and associated activities.

The Mayor and Transport Portfolio Councillor will establish a relationship with the Minister(s) for Transport and Main Roads.

Council staff will establish and maintain an effective working relationship with relevant officers of the Department of Transport and Main Roads and public transport providers.

In taking a "One Network" approach, the Department of Transport and Main Roads is the likely primary partner and external stakeholder.

The Department of Transport and Main Roads plans, integrates and manages the road, rail and bus networks across Queensland through:

- TransLink Division dealing with the current and short term public transport network and also regulating and managing taxi services, limousine services, ride share services and other transport services
- Policy, Planning and Investment Division dealing with planning for longer term public transport infrastructure and service network, the strategic road network and principal cycle network
- Regional Offices dealing with local road planning studies and delivery of State transport programs.

The wider range of transport roles and responsibilities is outlined in the Integrated Transport Strategy.

### Implementation responsibility

The annual Transport Levy Program will be developed and managed through the Built Infrastructure Group. Implementation of annual initiatives will occur in line with the substantive role of the respective Council Group/Branch/Unit or under direction, as appropriate.

An indicative Five Year Program is to be developed and managed through the Built infrastructure Group with input from other Groups.

Any application of the Transport Futures Fund will be guided by the Transport Futures Fund Plan and applied through a resolution of Council or through a budget review process.

### Implementation guidelines

Projects and initiatives approved for funding under the Levy should conform to this Policy. Additionally, they should conform to any existing organisational policy or specifically introduced guidelines to apply across all or to specific projects.

The amount of the Levy and its method of application will be determined through the annual budget process. The status of the Levy will be reported at least annually to Council and overall progress monitored by the Chief Executive Officer.

An annual Transport Levy Program and indicative Five Year Program will be:

- developed and reviewed annually, to ensure the transport infrastructure and services improvements needs of the Sunshine Coast Regional Council local government area is being best served
- incorporated as a summary with budget papers/submissions
- reviewed annually as part of the Council budget cycle or as directed to ensure Policy outcomes remain in focus
- Supported by additional information being available on each initiative with clear links to this Policy.

### Communications

This Policy and its intended application and outcomes will be communicated with the community.

All relevant matters will primarily be communicated through the Council website and include other methods as appropriate and as opportunities arise.

Recognise and promote the results of the Levy through effective branding and signing (where applicable) of infrastructure projects and services.

Feedback on initiatives or wider consultation on relevant Levy and broader transport related issues will occur periodically through appropriate mechanisms or as opportunity arises.

### Review

This Policy will be reviewed upon the election of a new Council, or as directed by Council.

### MEASUREMENT OF SUCCESS

The rate of vehicle registrations compared to the rate of population growth.

The patronage levels of public transport on the Sunshine Coast Regional Council local government area.

Progress toward meeting the requirements of the Disability Standards for Accessible Public Transport under the Disability Discrimination Act 1992 which sets the following timelines by which all bus stops are required to comply:

- 31 Dec 2022 – 100% of bus stops.
