- **Privacy and reputation**

Human Rights Assessment

What human rights are impacted?	Will any person feel their rights are limited and why?	What are the interests you have to balance?	Is the limitation reasonable?	What practical solutions are available to reduce the limitation?
1 Recognition and equality before the law	The Action Plan seeks to improve inclusion for people with disability and will contribute to the realisation of every person's right to enjoy their human rights without discrimination, as afforded in section 15 of the Act.	Council will seek to remove barriers to participation by providing accessible infrastructure and service provision.	It is reasonable and in the public interest for Council to ensure that facilities, services, information and activities do not discriminate against or create barriers to participation for people with disability as it enables democratic representation, social inclusion and meaningful engagement, in alignment with the Local Government Principles at section 4 of the <i>Local Government Act 2009</i> (Qld).	None required.
